

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

CT GLOBAL REAL ESTATE SECURITIES FUND

Class 3 Accumulation Shares (GBP) GB00BG5GMF34, a Fund of Columbia Threadneedle (UK) ICVC III (the "Company"), regulated by the FCA.

This Fund is managed by Columbia Threadneedle Fund Management Limited.

Objectives and Investment Policy

- The Fund aims to provide a return through a combination of income and capital growth over the medium to long term (at least 3 to 5 years). The Manager seeks to achieve this by investing at least 70% in fixed interest securities (securities that pay either a fixed or variable level of income on a periodic basis and generally repay a specified amount at a pre-determined date). These may include investment grade and high yield bonds from multiple sectors including developed markets, emerging markets and asset-backed issues. Bonds may be issued by companies or other entities including supra-nationals, sovereigns and governments. The issuers may be from anywhere in the world and issues may be denominated in any currency, thereby exposing the Fund to foreign currencies.
- The Manager selects the fixed income securities in which the Fund invests with the intention of achieving a wide degree of diversification across issuers and industries, and potentially across multiple investment sectors, while managing exposure to credit risk. Investment grade bonds are considered by the Manager to be those rated by independent ratings agencies such as S&P as BBB- or higher (or their equivalent), while high yield bonds are those with a rating of BB+ or lower (or their equivalent). For bonds which are not rated by an independent ratings agency the Manager will apply a comparable quality rating to determine whether a corporate bond should be classified as investment grade or high yield. The Fund may also invest in other transferable securities, collective investment schemes (including those managed by Columbia Threadneedle Investments), money market instruments, deposits, cash and near cash and forward transactions. Derivatives may be used for hedging, efficient portfolio management and investment purposes to replicate investment positions and generate additional return. This may include, but is not limited to, the use of currency forwards, exchange traded futures, interest rate and inflation swaps, single name and index credit default swaps. The use of derivatives for investment purposes is expected to be significant.
- The Fund is actively managed. The Manager believes that an appropriate comparator benchmark for reviewing fund performance is the Bloomberg Global Aggregate GBP Hedged TR Index. The Fund is not constrained by the benchmark and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition.
- There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.
- Income from investments in the Fund will be added to the value of your shares.
- You may buy or sell shares daily on demand (but not weekends or UK bank holidays or other days when the Fund is not open for dealing). Orders to buy or sell must be received by 12 noon (UK time) to receive the price calculated at that day's valuation point. We are not required to hold monies arising from the purchase and sales of shares in our funds in a client money bank account and hold these monies in our own bank account, utilising the FCA's permitted one-day window while carrying out a delivery versus payment transaction for the purpose of settling transactions in relation to units in the Fund. In the exceptional event that a transaction is not processed within this one-day window, any cash will be held in a client bank account. No interest will be paid to investors on cash held on a client bank account.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk,
Typically lower rewards

Higher Risk,
Typically higher rewards

- The Fund is rated 6 because historically it has shown a high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The indicator may not take into account the following risks which may impact future investment returns:
 - Derivative Risk: derivative values rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment.
 - Currency Risk: your investment may be adversely affected by changes in currency exchange rates.
 - Credit Risk: receiving income and capital due from debt instruments is dependant upon the provider's ability to pay.
 - Fixed Interest Securities Risk: changes in interest rates can affect the value of fixed interest holdings.
 - Counterparty Risk: to gain greater income the Fund may deposit cash with various approved Counterparties. Return of the cash is dependant upon the continued solvency of the Counterparty.
 - Smaller Companies Risk: smaller companies carry a higher degree of risk and their value can be more sensitive to market movement.
 - Liquidity Risk: the ability to buy and sell assets at a favourable price may be affected by a low level of counterparties willing to enter into a transaction with the Fund.
 - Restricted Diversification: investments are concentrated in companies which are focused on the property markets. These investments are limited to a relatively narrow segment of the economy. Performance may differ in direction and degree from that of the overall stock market.
 - Leverage Risk: the use of derivatives to increase the exposure of the Fund to the market through either long or short positions will make the value of the Fund's investments more volatile than those of an un-leveraged fund.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	0.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	0.65%
------------------	-------

Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

The ongoing charges figure shown here is an estimate of the charges because recent changes made to the Fund mean that the historic figures do not accurately reflect its ongoing costs. The UK-UCITS' annual report for each financial year will include detail on the exact charges made.

For more information about charges please see the Fund's prospectus.

Past Performance

Past performance is not a guide to future performance.

Fund launch date: 18/12/2013

Share/unit class launch date: 18/12/2013

Performance is calculated in GBP.

All charges and fees, except any entry, exit and switching charge, have been included within the performance.

This chart shows how much the Fund increased or decreased in value as a percentage each year.

*FTSE EPRA NAREIT Developed Custom Mid Day Net Tax TR (Although the Fund makes reference to the index as part of the investment process, it is not intended that the performance of the Fund should track the index.)

Practical Information
